Professional Summary

Frontend Developer with 1+ year of hands-on experience building scalable web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Experienced in reusable component architecture, React Hooks, state management, responsive UI development, REST API integration, accessibility, and cross-browser compatibility. Strong ability to translate UI designs into pixel-perfect, user-friendly interfaces using modern React development practices.

Experience

Frontend Developer (Freelance)

Apr 2026 – Present

Vyomanexgen

- Built and shipped **CFOUR**, a production-ready e-commerce platform hosting **42+ products across 10 categories** (Pipes, Lights, Switches, Wires, MCBs & DBs, Plumbing, Accessories, Agriculture, Industrial, Drainage), using React.js and Tailwind CSS.
- Developed a dynamic product catalog with real-time **filtering and sorting** (price range, brand, colour, availability) and live stock-state handling (in stock, out of stock, unavailable).
- Built reusable product-card components displaying **star ratings and review counts (40–128 reviews per product)** and live discount pricing (up to 29% off), improving purchase-decision clarity.
- Implemented dual purchase flows — **Add to Cart** and **Add to Quote** — plus detailed product pages (size, material, product code variants), broadening checkout use cases.
- Designed a scalable component library (catalog, mega-menu navigation, cart, authentication) reused across **10+ category pages**, cutting new-feature development time.
- Delivered a fully responsive, mobile-first storefront ensuring seamless UX and cross-browser compatibility across devices.
- Owned the project end-to-end — architecture, component design, and deployment on Vercel — with self-driven code reviews to maintain production-level quality.

Frontend Developer Intern

Hyderabad

Skyinten Technologies Pvt. Ltd.

Nov 2025 - Feb 2026

- Developed responsive React.js interfaces for an EdTech platform serving courses, live classes, and hackathons, improving usability across student-facing pages.
- Converted Figma designs into pixel-perfect UI components for course listings and event pages while maintaining accessibility standards.
- Integrated REST APIs to dynamically render course content and event listings, enabling real-time data updates for students.
- Improved frontend performance and resolved cross-browser compatibility issues across course and event pages through debugging and optimization.
- Collaborated with the development team in Agile workflows to ship feature enhancements for course and event modules.

Education

CMR Engineering College

Nov 2021 – July 2025

Bachelor of Technology in Computer Science and Engineering | CGPA: 8.68/10

Relevant Coursework: Web Technologies, Database Management Systems (DBMS), Operating Systems

Skills

Frontend Development	: React.js, JavaScript (ES6+), React Hooks, Lifecycle Methods, DOM Manipulation, HTML5, CSS3, Tailwind CSS, Redux, Responsive Web Design
UI Engineering	: HTML5, CSS3, Flexbox, CSS Grid, CSS Variables, Figma-to-Code, Mobile-First Design, Accessibility, WCAG Fundamentals, Cross-Browser Compatibility
JavaScript	: Async/Await, Promises, ES6+ Modules, Destructuring
Software Development	: REST API Integration, Object-Oriented Programming (OOP), SDLC Fundamentals, Frontend Debugging, Agile Development
Tools & Technologies	: Git, GitHub, Vite, Vercel, VS Code, Chrome DevTools, SQL, Python (Basic)

Projects

JobX Portal | React.js, Tailwind CSS, JavaScript

[GitHub](#) | [Live](#)

- Built and deployed a full-stack career platform connecting job seekers and employers, with job discovery, smart search/filtering, company career pages, employer job posting, bookmarks, and application tracking.
- Developed scalable React.js and Node.js/Express.js architecture with REST APIs, MongoDB integration, JWT authentication, role-based access, resume management, and responsive UI components.
- Implemented AI-powered career features including resume-job matching, interview preparation, and cover-letter generation, transforming JobXPortal into an end-to-end platform for both candidates and recruiters.

Quiz Application | React.js, CSS

[GitHub](#) | [Live](#)

- Developed a dynamic quiz application using React.js with API-based question fetching, ensuring unique questions on every attempt.
- Implemented category and difficulty filtering, countdown timer, score tracking, and progress monitoring for an interactive user experience.
- Built reusable React components with conditional rendering for answer validation, result visualization, and quiz state management.

Personal Portfolio Website | React.js, CSS

[GitHub](#) | [Live](#)

- Designed and developed a fully responsive portfolio website showcasing projects, skills, and experience using React.js.
- Implemented dynamic navigation, reusable components, and responsive layouts for improved usability.
- Optimized frontend performance and ensured cross-browser compatibility.

Certifications

React JS – Core frontend concepts including component-based architecture, props, and hooks — [Scaler](#)

Java Programming - Covered Java basics: arrays, file handling, and structured data — [Coursera](#)

Virtual Technology Job Simulation – Software development experience — [Deloitte \(Forage\)](#)

Publications

Face Recognition-Based Attendance System Using KNN Algorithm

June 2025

IEEE 3rd International Conference on Augmented Intelligence and Sustainable Systems (ICAISS), 2025.

DOI : [10.1109/ICAISS61471.2025.11042050](https://doi.org/10.1109/ICAISS61471.2025.11042050)

Achievements

Certificate of Merit – Naukri Campus Young Turks 2025

Secured 95.22 percentile in Naukri Campus Young Turks 2025, a national-level skill competition recognized by industry professionals.

Event Organizer – College-Level Events

Coordinated college-level technical and cultural events, strengthening leadership and team collaboration skills.
