## Professional Summary

Frontend Developer with hands-on experience in React.js, JavaScript, HTML, CSS, and Tailwind CSS through freelance and internship roles. Skilled in building responsive web applications, integrating REST APIs, and developing reusable UI components. Passionate about creating clean, scalable, and user-focused frontend solutions.

## Experience

### Frontend Developer (Freelance)

Apr 2026 – Present

*Vyomanexgen*

- Developed and maintained a production-ready e-commerce website using React.js and Tailwind CSS.
- Built reusable UI components for product listings, navigation, and customer-facing workflows.
- Implemented mobile-first responsive designs to ensure seamless user experience across devices.
- Collaborated with stakeholders to deliver scalable frontend features based on business requirements.
- Optimized frontend performance and ensured cross-browser compatibility.

### Frontend Developer Intern

Hyderabad

*Skyinten Technologies Pvt. Ltd.*

Nov 2025 – Feb 2026

- Developed responsive React.js interfaces using reusable components and modern JavaScript practices.
- Converted Figma designs into pixel-perfect, mobile-responsive UI components while maintaining accessibility standards.
- Integrated REST APIs into React applications for dynamic data rendering and improved user interactions.
- Improved frontend performance, cross-browser compatibility, and responsive design through debugging and optimization.
- Collaborated with developers in Agile workflows to deliver feature enhancements and resolve frontend issues.

## Education

### CMR Engineering College

Nov 2021 – July 2025

*Bachelor of Technology in Computer Science and Engineering* | CGPA: 8.68/10

**Relevant Coursework** : Web Technologies, Database Management Systems (DBMS), Operating Systems

## Skills

|                                 |                                                                                                                        |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Frontend Development</b>     | : React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design                                        |
| <b>UI Engineering</b>           | : Component-Based Architecture, Figma-to-Code, Mobile-First Design, Accessibility Basics, Pixel-Perfect UI Development |
| <b>Software Development</b>     | : REST API Integration, Object-Oriented Programming (OOP), SDLC Fundamentals, Frontend Debugging, Agile Development    |
| <b>Tools &amp; Technologies</b> | : Git, GitHub, VS Code, Chrome DevTools, SQL, Python (Basic)                                                           |
| <b>Core Competencies</b>        | : Problem-Solving, Analytical Thinking, Team Collaboration, Communication                                              |

## Projects

### Personal Portfolio Website | React.js, CSS

[Live](#) 

- Designed and developed a fully responsive portfolio website showcasing projects, skills, and experience using React.js.
- Implemented dynamic navigation, reusable components, and responsive layouts for improved usability.
- Optimized frontend performance and ensured cross-browser compatibility.

## Quiz Application | React.js, CSS

[GitHub](#) [Live](#)

- Developed a dynamic quiz application using React.js with API-based question fetching, ensuring unique questions on every attempt.
- Implemented category and difficulty filtering, countdown timer, score tracking, and progress monitoring for an interactive user experience.
- Built reusable React components with conditional rendering for answer validation, result visualization, and quiz state management.
- Designed a fully responsive and accessible user interface with cross-browser compatibility and optimized performance.

## Face Recognition Based Attendance System | Python, SQL

[GitHub](#)

- Developed a face recognition-based attendance system using Python and OpenCV for automated attendance tracking.
- Improved attendance processing efficiency and reduced manual tracking errors through real-time recognition workflows.

## Certifications

---

**React JS** – Core frontend concepts including component-based architecture, props, and hooks — [Scaler](#)

**Virtual Technology Job Simulation** – Software development experience — [Deloitte \(Forage\)](#)

**Java Programming** - Covered Java basics: arrays, file handling, and structured data — [Coursera](#)

## Publications

---

**Face Recognition based Attendance System using KNN Algorithm**

June 2025

IEEE 3rd International Conference on Augmented Intelligence and Sustainable Systems (ICAISS), 2025.

DOI : [10.1109/ICAISS61471.2025.11042050](https://doi.org/10.1109/ICAISS61471.2025.11042050)

## Achievements

---

- **Certificate of Merit – Naukri Campus Young Turks 2025**

Secured 95.22 percentile in Naukri Campus Young Turks 2025, a national-level skill competition recognized by industry professionals.

- **Event Organizer – College-Level Events**

Coordinated college-level technical and cultural events, strengthening leadership and team collaboration skills.
